

CEO

Apop Imaging

• *Emerging private life sciences company*

Apop Imaging Pty Ltd has discovered a novel biochemical marker for use in imaging Programmed Cell Death. It is developing products for research, diagnostic and therapeutic applications in a worldwide market of huge potential and significance.

In concert with the board, you will lead the company, driving business development and operations, while expanding and motivating the Apop team. Capital raising is a priority, in order to realise plans for building a globally dominant product portfolio.

Your entrepreneurial flair is based on technical know-how and business acumen acquired in the international biotechnology industry. Passion, commitment and influencing skills are the attributes which have enabled you to engage positively with shareholders and stakeholders in securing commercial success.

Please view the Position Description on www.brookerconsulting.com.au and send a brief CV (Word format, up to 5 pages) to career@brookerconsulting.com.au or ring Jeremy Wurm on 03 9602 1666, in confidence.
